

Airflow System's High Performance 356/912 Porsche Oil Cooler Independent Test Results

- Test Results Shown from Laboratory used to Qualify Aircraft Oil Coolers
- Parameters: Tested with 3 gal/min at 190°F
- Increased Heat Rejection of over 50 BTU/min (20.5%)
- Low Oil Pressure Drop, Reduces Back Pressure by over 5 PSI (62.5%)
- 33% Lower Weight than Stock Oil Cooler
- Made in the U.S.A., Retails at \$595
